THE DECISION

Colossus 90-day content calendar

Full council · 3 advisors · 3 rounds

What content engine runs for 90 days at 5 posts a day on TikTok and Instagram to attract creators and subscription-app founders?

GO WITH CONDITIONS THE COUNCIL'S CALL

Run Option B: 5 posts a day on TikTok and Instagram from Oct 19, with outbound DMs and calls as the engine for apps and content as the warm-up. Hold 500 creator applications and 10 paying apps by day 60; treat 50 apps as a stretch.

Confidence 6/10 · 0 endorse, 3 amend, 0 dissent

Scores

A	Even-split blast, 5 a day from day 1		2.4
B	**Phased engine tied to the gates**	RECOMMENDED	7.3
C	2 flagship posts a day plus outbound		5.6
D	No social calendar, outbound only		1.4

Each advisor scores every option from 1 to 10, weighted by how much their area matters to this decision.

Why the council landed here

- **Alex Hormozi:** Content cannot carry the apps. 50 paid apps needs about 170 calls and 2,400 DMs; 450 posts bring about 340 inbound DMs.
- **Gary Vaynerchuk:** Volume is the lever for creators. The long tail is a volume game, and zero followers still get views.

Simulated advisors built from each person's public work. They are not the people and do not speak for them.

- **Dan Martell:** The founder's hour is the limit: content plus calls at 10 hours a week or less, with an editor doing the editing.

Gary Vaynerchuk	3	**3**	**7**	**5**	**1**	Amend
Dan Martell	2	**2**	**8**	**6**	**1**	Amend

Watch out

Alex Hormozi: "I can't tell yet if the 30% accept and 10% DM-to-call rates are real."

For this to be right: Nobody dissented. If real rates are near 5% and 2%, even 10 apps is hard and the plan should switch to C.

What to do next

- **By Fri Oct 23:** Post the editor test role, run the time audit, film the first pillar show, post 5 clips on Mon Oct 19.
- **By Mon Oct 26 and Fri Oct 30:** Name the owner of 55 DMs a day; send 300 DMs and book 15 app calls.
- **Nov 16, Dec 16, Jan 15:** Gate checks; 10 apps paying the matching fee by Dec 16.
- **Cheapest test:** Post 5 clips a day for 14 days and count keyword DMs; cost near $0 plus the editor test.
- **Kill it if:** Switch to C if app-intent DMs fall under 5 per 50 app posts, median views stay under 150 after 150 posts, or founder hours pass 10 a week for two weeks. Stop if by day 60 fewer than 3 apps have paid.

Where they fought

- **How many posts a day, and from when?**
  Hormozi and Martell wanted 3 a day until Nov 2; Gary V wanted 5 from Oct 19 with raw clips. Gary V's amendment carried: slots 2 and 5 are raw and default ON, off only if the Friday hours log passes 10.
- **Can content produce 50 apps?** Hormozi's DM math won and Gary V and Martell conceded. Holds: 10 apps by day 60, 25 by day 90, 50 as a stretch.
- **Is fewer, better posts (C) stronger?** Forced by the unanimity check. Each seat gave C a 5 or 6. Result: B for creators, C-style outbound for apps, and a stated switch to C.
